Parent information on the corona virus

Dear parents

At least since the first confirmed cases of illnesses with the new coronavirus Covid-19 in Switzerland, the topic is omnipresent with us.
However, it seems important to me that we deal with this topic calmly and without panic.

School lessons take place properly in the canton baselands after the Carnival holidays.

Even if Covid-19 is usually not a serious illness, certain measures must be taken.

1. If you and your family stayed in an area affected by the coronavirus during the Carnival holidays (China, Iran, Japan, Singapore and all of Italy), your child may not attend school for the next 14 days. In this case, please contact me as soon as possible.

2. Please take even greater care than before to ensure that your child stays at home with flu symptoms, cures himself and does not go to school with symptoms of illness. Our employees are instructed to send sick children home immediately or to have them picked up by their parents. The children must stay at home until they are fever-free and healthy (without symptoms) for at least one day.

3. We are grateful if you continue to ensure that your child also takes hygiene measures at home, such as keeps frequent hand washing with liquid soap.

Current information on the corona virus can be found at www.bag.admin.ch. If you have specific questions, please contact the informational coronavirus +41 58 463 00 00 (daily from 8 a.m. to 6 p.m.).

Thank you for your attention.

Best regards
